

FALL BULLETIN

1921

Pleasant Hill Academy

Pleasant Hill, Tenn.

REV. W. E. WHEELER, Principal Emeritus
REV. W. H. TRAINUM, A. M., B. D., Principal
ALEXANDER BOYCE, Secretary-Treasurer

FALL OPENING, SEPTEMBER 6, 1921

A MESSAGE TO PARENTS:

Do you know that every day spent in school pays the child nine dollars? HERE IS THE PROOF. Uneducated laborers earn on the average \$500 a year for forty years—a total of \$20,000. High school graduates earn on the average \$1,000 a year for forty years—a total of \$40,000.

This education requires 12 years of school of 180 days each, a total of 2160 days in school. If 2160 days at school add \$20,000 to the income for life, then each day at school adds \$9.02.

The child that stays out of school to earn less than \$9.00 a day is losing, not making money.

GENERAL INFORMATION

LOCATION

Pleasant Hill is located in Cumberland County, 1900 feet above sea level, about half way between Crossville and Sparta on the National Highway between Bristol and Memphis. Removed from the distracting influences of the town or city, it offers opportunity for study and character building of untold value.

Students coming via Crossville can take the mail hack to the school. Those coming to DeRossett or Mayland will be met by the School team on September the 5th, if the school is notified in advance.

THE NEW PRINCIPAL

Rev. W. H. Trainum graduated from Northwestern University with the degree of A. M. and from Garrett Biblical Institute with degree of B. D. He also spent three years in additional work in the University of Chicago.

Besides the above training, he holds the B. A. in education from the Missouri State Teachers College with the State Teachers' Life Certificate. He taught a number of years in college and university and was Dean of the School of Bible Study, Valparaiso University, later Dean of the College of Liberal Arts of Ohio Northern University. He comes to Pleasant Hill highly commended both by school men and the church.

ADMISSION

Applicants are required to furnish evidence of good moral character.

While students are admitted at any time, it is to their advantage to enter at the beginning of a new term, especially the fall term.

REGULATIONS

Fire arms, profanity and the use of intoxicating liquors are strictly forbidden.

All pupils will attend church and Sunday school on Sundays, also daily chapel exercises. Pupils entering school are understood by that act to pledge themselves to an honorable observance of these and all other regulations which the principal may deem necessary for the

common good. It is not a question of what an individual teacher or student may think of the rules, but a matter of good citizenship. The **best place** to train for citizenship is in the school where we learn to obey authority and work for the common good. All of us are interested in the common good, beginning in the home and extending into the community, the state and the nation.

No student will be **retained** in the school when the interest of the school demands his or her removal.

Students are required to furnish their own lamps, drinking cup, broom, soap, matches and towels.

PURPOSE

It is the purpose of the school to fit boys and girls to be leaders in their communities. In order to do this, the education must be of a threefold nature—HEAD, HAND, HEART. While emphasis will be placed on class-room exercises, every student is expected to do some work in the school. All boarding students are required to furnish five hours of labor a week in addition to regular expenses. This is done to put all on the same basis. A good American citizen is a man or woman that works.

Opportunity will be given to a few students to meet a part of their expenses, in some cases all expenses, by labor. This is made possible by student aid funds solicited **especially** for those who **need** this help.

This aid will be continued only as long as the student proves himself faithful in **both** class-room and outside work.

The school having only a limited amount of remunerative work, students who are able to get along without this help should respect the other fellow and give place to the one who needs it. Every student should come with at least enough to take care of his expenses for the first month. This gives the school a chance to put the student in the place to which he is best adapted.

THE BIBLE

This being primarily a Christain nation, founded upon the fundamental teachings of the Bible, no education is complete without a working knowledge of the Bible. This school has always and will continue to teach the Bible as a part of its regular course. Furthermore, history proves that the great individuals and nations today are those guided by a familiarity with the teachings of this book.

IMPROVEMENTS.

The principal's house has been remodeled and made modern. Some repairs are being made on the school buildings, a new barn, modern in every respect, to meet the needs of expansion planned, is in the course of construction. Next spring we expect to break ground for two new school buildings. One with a modern gymnasium, auditorium for chapel and general community use with administration rooms, the other building for the high school with class and study rooms and laboratories for science and agriculture.

EXPENSES

Board, room, etc. in advance, per month.....	\$14.00	\$12.00
Tuition in advance, per month.....	2.00	
Incidental fee, including fire, light and laundry, per month.....	2.00	
Doctor's care, per month.....	1.00	
Registration fee, per year.....	25	

Students are required to deposit a Damage Fee of \$3.00 to insure against needless damage. This fee will be refunded at end of year if no damage is assessed against the student. Students are also required to deposit \$2.00 to insure room-lock and key—returned at end of year if both are O. K.

TEACHING FORCE
