WHEELER HALL AND DOMESTIC SCIENCE BUILDING

GENERAL INFORMATION

Pleasant Hill Academy is situated in the mountains of Tennessee, on the Cumberland Plateau in Cumberland County. It is on the Memphis-to-Bristol Highway, 11 miles from Crossville, and 17 miles from Sparta. The Tennessee Central Railway passes within 8 miles of Pleasant Hill at Mayland and within 6 miles at Pomona Roads. The N., C. & St. L. Ry. passes within 6 miles of the school at DeRossett.

In plain view of Pleasant Hill the Walden Ridge looms up 1,000 feet higher than the Plateau on the East. The mountain drops 1,500 feet only a few miles from Pleasant Hill on the West. The whole section is studded with spruce, holly, laurel, ivy, dogwood, redbud, rhododendron, and thousands of other well-known, and unnamed flowers. The school situated in the midst of these has been rightly termed "Beautiful for Situation." It is a "Pleasant Hill." These together with an altitude of 2,000 feet and a breezy climate, makes Pleasant Hill a most attractive and healthful place in which to live the year round.

The Academy has a splendid farm and campus of about 200 acres which helps to supply food and labor for the students. The campus and plant contain ten good buildings, including Boys' Dormitory, Girls' Hall, Chapel and Class Building, Domestic Science Building, a New Modern High School Building, a new steam laundry and a splendid Barn, together with a lighting plant for the entire campus and a water system that provides filtered water in quantities sufficient for all the school's needs, including fire protection.

The faculty and working staff is composed of twenty-one consecrated Christian teachers and workers. Most of them are college graduates and each one is specially trained for the work he or she is doing.

PURPOSE

It is the purpose of Pleasant Hill Academy to provide a practical Christian education to as many mountain boys and girls of the South, and especially Tennessee, as the school can accommodate. Students should go out from Pleasant Hill better fitted to cope with life's problems, better fitted in a Christian way to serve the world and mankind, prepared to make better citizens and to upbuild the communities in which they live.

Those who wish to go to college will also find that the work given here will fit them for college entrance. It is not the purpose of the school to train the students away from the mountains and their homes, but to teach them the dignity and usefulness of labor and how best to serve in their own communities and among their own people. To these ends, such practical subjects as these are taught: Bible, Manual Training, Agriculture, Domestic Science, Art, Weaving, Music, Civics, and Teacher Training in addition to the regular school courses.

COURSE OF STUDY

The first twelve grades which lead to graduation from high school are taught. The first eight grades conform to the course of study outlined by the State Board of Education in Tennessee. These eight grades form a part of the public school system of Cumberland County. Although the high school is under private supervision, separate and apart from the State, every effort is made to have the work conform to the requirements for accredited high schools in Tennessee, and to conform to the requirements of the Southern Association of Accredited Secondary Schools and Colleges.

ENTRANCE REQUIREMENTS

Since the course of study embraces all the grades, a student may enter in any grade, except that students under fifteen years of age should not apply for entrance in the boarding department, and students who have been turned away from school because of improper conduct may be refused admittance for the same reason. Students entering any grade or class will be expected to show a certificate to the effect that all work in the previous grades has been satisfactorily completed. In addition, boarding students should fill out the regular application blank and send statements from one or more prominent citizens as proof of their good moral character.

PROMOTION AND GRADUATION

In order to graduate from the eighth grade, a student must satisfactorily pass the first eight grades as prescribed by the State Board of Education.

In order to graduate from the high school, a student must satisfactorily complete 16 standard units of credit. (A standard unit requires 45 minutes recitations, five times each week for 36 weeks). There are required for graduation 4 units of English, 2½ units of Mathematics, 2 units of foreign language (or a satisfactory substitute), and 1 unit each of History, Science and Bible together with 4½ elective units. Each student who expects to graduate must select some course of study in which to specialize and must take four units in that line of study. Students will have the following curricula from which to select:

Agriculture	Manual Training
English-Science	Latin
Home Economics	Teacher Training

Before graduation each student must deliver an original oration which will be satisfactory to the faculty committee which will be appointed to judge. In addition, all bills within the school must be paid or satisfactorily arranged for. No student will be promoted or graduated who has an average below "C" (or 75) or who has any term grade below "D" (or 65) or who has an unsettled bill to the school.

GRADING SYSTEM

Students are graded both in school work and labor by the letters "A," "B," "C," "D," "E" and "F."

For school work the grades are interpreted as follows:

A.....	95-100	} Passing
B.....	85-94	
C.....	75-84	
D.....	65-74	
E.....	55-64	} Condition Failing
F.....	Below 55	

In labor the student is paid on the basis of the grade of his labor as follows:

A.....	20c	Per Hr.
B.....	15c	Per Hr.
C.....	12½c	Per Hr.
D.....	10c	Per Hr.
Below D.....		Worthless.

MEDALS AND PRIZES

A Lincoln medal of solid government bronze will be awarded on Lincoln's Birthday to that student in the high school who writes the best essay on Abraham Lincoln.

A gold medal will be awarded to that student in the high school who maintains the highest scholastic average for the entire year.

A gold medal is awarded each year through the gift of James R. Campbell for the best original oration.

An effort prize of \$5.00 has been given by Miss Emily Reece for the student who shall put forth the most effort during the school year.

Through the interest of friends two scholarships of \$25.00 each will be given to the boy and girl who make the greatest progress in the eighth grade. This is to apply toward the students expenses in Pleasant Hill Academy the following year.

A faculty scholarship is this year awarded to that student who is voted to show the best attitude, together with his need, effort and accomplishment.

An athletic trophy in the form of a silver loving cup is awarded to the class in school which wins the field meet each year. The trophy is kept by the winner until it is won by some other class.

Students of the high school are eligible to compete for the Firestone Good Roads Essay Scholarship which provides for four years in college, approximately \$4,000.00.

STUDENT ORGANIZATIONS

Probably nothing outside of the class room has more value to the student in developing leadership and self-expression than the student organizations. The student who expects well rounded development needs to take as large a part in student activities as possible.

There are four literary societies, two for the boys and two for the girls. Each boarding student and high school student is supposed to be an active member of one of these.

The Athanaeum is a literary organization of the entire student body. It meets once each month, and is the real mouthpiece of the school to the public.

The Christian Endeavor is an organization of the young people of the school and community. It meets each Sunday evening and devotes its meetings to the promotion of Christian work.

There are two glee clubs, one for the boys and one for the girls. Through the assistance of the music director, they add much to enrich the school and community life during the year.

DEBATE AND ORATORY

Pleasant Hill Academy is a member of the Big "5" Interscholastic Literary League which is statewide in its scope. Local winners in Debate, Original oratory, Extemporaneous Oratory, Dramatic Reading and Humorous Reading, are permitted to enter the contest at Knoxville to compete for the state championship in these events.

CHURCH AND SUNDAY SCHOOL

Church services are held each Sunday, morning and evening. There is Sunday School each Sunday morning, Young Peoples meeting in the evening and prayer meeting on Wednesday evening. All students are cordially invited to attend these services.

ATHLETICS

The main athletic sports, Football, Basket Ball, Baseball, and Track will be provided for the boys. The girls may have a Basket Ball team and whatever other teams the physical director may think best. In addition to the main athletic sports, physical training will be provided for and required of all students.

MEDICAL CARE

Dr. May C. Wharton, who is widely known through this section for her splendid medical work, and who has her own private sanatorium "Uplands" in Pleasant Hill, is a member of the faculty and is the school physician. A small medical fee which is included in the school expenses brings the services of Dr. Wharton to the students. Miss Alice Adshead, head nurse at "Uplands" Sanatorium, teaches nursing for the girls. The health of the school is unusually good. There has been no epidemic in several years. We attribute this excellent state of health very largely to the efficient medical care the school receives.

CO-OPERATIVE STORE

For the benefit of the students and the school, there is maintained a co-operative store to furnish the necessary school and incidental supplies that will be needed for the students. All articles will be sold for cash. A profit of ten percent will be charged. Savings from this enterprise will be used for student activities, such as athletics. Students and teachers will find this the best place to buy school supplies and many other necessities.

LABOR AND SCHOLARSHIPS

All boarding students will be required to work at least five hours per week. They will be paid for all the work they do. The labor wage will not be high. Neither are the school expenses high, since the amount paid in by the students pays less than half of the running expenses of the school. The school cannot pay on the basis of big industry wages. Neither does it expect its students to pay large fees. We expect our students to have more time and strength than money.

Practically all the work of the school is done by the students. This provides a possibility for needy students to work a part of their way by the labor they do. During the year scholarships are received for this purpose. The scholarship pays for the work done; it provides work for the student, and incidentally allows the student to get an education when otherwise the opportunity might not be provided.

This labor scholarship fund is limited. Not all students can be allowed to work their way through. The number of students the school can accommodate is also limited. In every case, the student is supposed to pay all he or she can toward the school expenses. If this is not enough to pay all, a scholarship may be requested for the remainder of the expenses. If such a scholarship is available, the application will be considered on that basis. Students receiving scholarship aid will be expected to maintain a passing grade or better in all classes.

One of the basic principles of the school is labor. We feel that the sooner the student learns the value, dignity, and usefulness of work, the sooner he will be able to meet the problems of life. • No student who is unwilling to work, even at the most common labor, should make application to Pleasant Hill Academy. •

Unless there is some reason to the contrary all labor is graded "C" as average labor at $12\frac{1}{2}$ cents per hour. If a student can work a month without his work or attitude being criticised, he may be graded "B" for that month. If the work is so good that it does not invite suggestion, it may be graded "A" with pay accordingly.

REGULATIONS

The rules and regulations of the school are few. We believe in wholesome amusements, freedom and family-like friendship between the students in school. At the

same time, if we cannot make the parents feel that their children are under Christian leadership and influence, we should not accept the responsibility of their care. The regulations that we have were made with this end in view—that they shall help toward developing Christian character and orderly, well-rounded manhood and womanhood.

The regulations that exist will be strictly enforced. Any student who persistently violates school regulations or any one of them will not be permitted to remain in school. If a student has to be sent away for such a cause, no advance funds which he has paid to the school will be refunded. Profanity, rowdyism, gambling, card playing, and the use or possession of intoxicating liquor, tobacco or fire-arms will be strictly prohibited.

Students are expected to be in their rooms at night, and to attend all classes, examinations and chapel, church, Sunday School, and literary societies regularly. Boarding students should not leave Pleasant Hill without permission. • Automobile and horseback riding for boys and girls together are prohibited except in rare cases, and then by permission of the principal with a teacher present. In general, boys and girls are to conduct themselves as gentlemen and ladies should conduct themselves, and refrain from doing those things that could in any way be cause for criticism or doubt. Parents at home and in Pleasant Hill are asked to cooperate in making this possible.

Any student representing the school on an athletic team, debating team or otherwise, will be expected to maintain good moral character and a passing grade or better in all classes.

SIMPLE LIFE

The life in Pleasant Hill Academy is simple. It is no place for extravagance, fine dress and unnecessary jewelry. No student should feel embarrassed because he or she does not have fine clothes, and money to spend. The simplest dress or suit is good enough for any occasion if it is clean. If girls have fine dresses, they should leave them at home. Girls will not be permitted to wear evening dresses on any occasion. The wearing of silk hose is to be discouraged. Any manifestation of extravagance on the part of boy or girl will be taken as proof that the student doesn't fit into the life of Pleasant Hill Academy. This is to encourage beauty in simplicity, and to save from embarrassment any student who does not have fine clothes and extra money to spend.

EXPENSES

There will be no fees for students in the first eight grades who live at home in Pleasant Hill during the eight months of free school.

All boarding students, whether in the high school or in the grades, will pay the regular school expenses, amounting to \$161 for the year of 36 weeks. This provides board, room, heat, light, laundry, bedding and room furnishings. All bills are due in advance. Students will be prepared to pay cash on settlement days or make other satisfactory arrangements about payments. Labor credit will not be given in advance. Bills will be due as follows:

September 2, 1925.....	\$40.25
November 4, 1925.....	40.25
January 13, 1926.....	40.25
March 16, 1926.....	40.25
Total.....	\$161.00

Local high school students who live at home will pay tuition in advance as follows:

September 2, 1925.....	\$4.50
November 4, 1925.....	4.50
January 13, 1926.....	4.50
March 16, 1926.....	4.50
Total.....	\$18.00

In addition to the above expenses all boarding students and all local high school students will pay the following:

Registration (with application).....	\$1.00
Damage fee (Returnable).....	3.00

Students who wish to take music in addition to the choral music which is free to all will pay the following fees in advance:

Piano Lessons.....	\$4.50 Each Quarter
Piano Lessons with.....	
practice.....	9.00 Each Quarter
Violin Lessons.....	4.50 Each Quarter
Vocal Lessons.....	4.50 Each Quarter

REFUND OF EXPENSES

Any student who has to leave school because of sickness or for any other unavoidable reason may get a refund proportionate to the time he or she is absent, provided the treasurer is notified before the student leaves. In no case will a refund be made for less than a week's absence. But if a student has to be sent home or if he leaves of his own accord with permission, no refund will be made.

FINAL INSTRUCTIONS TO STUDENTS

Students coming to Pleasant Hill Academy should bring whatever clothing and personal effects they will need, being sure to include some working clothes. Bedding will be furnished complete by the school. Towels may be brought from home, or bought from the school at a nominal sum. Books and other needed articles may be bought from the school co-operative store.

All boarding students should arrive the day before the opening of school for both fall and spring terms. Those coming over the N., C. & St. L. Railway will leave the train at DeRossett and drive to Pleasant Hill. Those coming by the Tennessee Central Railway should leave the train either at Mayland or at Crossville. In any case, the Principal should be notified beforehand, if the school is expected to provide conveyance from the railroad.

APPLICATION

Application may be made to:

E. H. Elam, Principal, Pleasant Hill, Tennessee.

HOW THE SCHOOL IS MAINTAINED

Pleasant Hill Academy is a project of the American Missionary Association. It is supported and maintained by the association, together with the donations of the many friends of the association, the school, and the work they are doing.

The American Missionary Association pays a little more than one-half the school budget, including the teachers' salaries, and some in addition for maintenance, repair and improvement. The sum paid in by the students, together with the income from the farm and all other local sources, amounts to a little more than one-fourth of the school expenditures. The remainder, a sum of several thousand dollars, is given by organizations and individuals who are interested in the work.

Donations in any amount, large or small, are gratefully appreciated, and will be used to further this work. They may be sent to the American Missionary Association, 287 Fourth Avenue, New York City, or to E. H. Elam, Principal, Pleasant Hill, Tennessee.

GRADUATING CLASS '25

HOPKINS HALL
